Dear Colleagues,

It is a great pleasure that we invite you to take part in The 18th International Symposium on Critical Care and Emergency Medicine 2011.

The event will begin with a plenary, followed by memorial lectures in honor of this event's initiators, Dr. Igpal Mustafa from Indonesia who left us in 2004 about clinical aspect, to be delivered by Anthony McLean (AUS) and Dr. Xavier Leerve from France who departed last year, about “Update on The Bioenergetic of Shock States,” which will be delivered by Ernest Benjamin (USA). They will always be remembered as friends and colleagues whose scientific knowledge and research will serve as a legacy to continue their aim to promote critical care knowledge.

Besides exchanging recent clinical experiences and research, everyone the participants can also share and discuss emergency and critical care practice issues with renowned world-class experts and key opinion leaders from Australia, China, Egypt, Germany, Hong Kong, India, Indonesia, Italy, Japan, Korea, Malaysia, Netherlands, New Zealand, Philippines, Saudi Arabia, Singapore, Spain, Dominican Republic and USA. And share first-hand experiences with colleagues as well.

Continuing the success of International Symposium on Shock Critical Care, after discussing, debating and analyzing how the nursing profession can respond through advanced practice, to changing environments and meet demands placed on the critical care and emergency system, it is an honor for us to design a special meeting for nurses, International Symposium on Critical Care and Emergency Nursing 2011 at the Bali Rani Hotel, Kuta-Bali. This event will be a good opportunity to increase knowledge and expertise of nurses in critical care settings and maintain communication and collaboration among colleagues in the critical care nursing community.

Therefore it would be an honor for us to have you as a participant of this exciting event. We bid you a warm welcome to the beautiful city of Bali.

Sincerely yours,
